Subject: Re: BVLS (NNLS) without loops?
Posted by Mike[5] on Tue, 14 Jan 2014 15:42:43 GMT

Hi Juan Pablo,

I don't see any obvious way to speed up your problem.

However I take the opportunity to suggest the inclusion of a compiled version of BVLS (or NNLS) into a future version of IDL. I have been using that routine for years in a numbers of problems. I keep missing a faster built-in IDL version.

Cheers,

Michele
