Subject: PV-Wave-> Postscript-> TeX

Hello All-

  I am wanting to include PV-Wave output (in postscript form) into
TeX documents. I can output postscript, and it looks great, but
does anyone here know how I can include it into TeX? We run
Unix TeX 3.14 with the EPlain package. Any help will be appreciated!

  Thanks-
  Greg Lindstrom (glind@sun1.hu.edu)
