Chris, that's the same error I got---was wondering what's up. Thanks for the explanation.

Heinz, thanks! The following also works (though it's not more pretty, unfortunately), if anyone wants device fonts:

```
!p.font=0
set_plot, 'ps'
data=[1,2,3]
aleph='!s<!r!d !n|!d !n'
device, file='idl.ps'
plot, data, data, xtitle=aleph
device, /close
```
