Haje Korth writes:

> I just created a plot with a legend in new graphics (NG). LEGEND function requires that the NAME keyword is assigned to each plot command. My names include units so include the "/" character. However, IDL 8.3 returns "The identifier property value cannot contain '/' characters." Does anybody know if there is a way to escape this?

This was discussed recently here. Can't remember how it was resolved, but Chris Torrance responded with some kind of workaround.

Cheers,

David
