Subject: Re: Error with cg output and ImageMagick
Posted by BLesht on Mon, 24 Feb 2014 18:30:35 GMT

Phillip - Still trying to get this problem solved.

I see you have /opt/local/bin in your path Where exactly do you install the ImageMagick binary when you do this? MacPorts uses /opt/local/bin. How did convert find its way to /usr/local/bin on your system?

Thanks, Barry
