Subject: Using Coyote Graphics Webinar
Posted by David Fanning on Wed, 12 Mar 2014 16:21:32 GMT

Folks,

Just a reminder than I will be hosting a Using the Coyote Graphics
Systems webinar *tomorrow* for anyone interested in learning how to
install and use the Coyote Graphics System. Details can be found here:

  http://www.idlcoyote.com/cg_tips/webexhelp.php

Basically, you need a modern browser to participate and I am told the
WebEx technology knows how to deal with firewalls, etc. You can find a
link on the page above that will let you test whether you will be able
to participate of not.

Cheers,

David
