Where there is great power, comes great responsibility. :-)

Try this, instead:

```
Pro whereistile
  data=[2,3,4,5]
  Titles=['Data1', 'Data2', 'Data3', 'Data4']
  !P.Multi=[0,2,2]
  For i=0, 3 DO Begin
    cgBarplot, data[i], BarNames=labels, YRange=[0,10], $
      Title=Titles, Colors=Colores
  EndFor
  !P.Multi=0
End
```

```
cgWindow, 'whereistile'
END
```
