Subject: Drawing the mean in cgboxplot
Posted by Marta Yebra on Wed, 16 Apr 2014 03:59:03 GMT

HI,

I have modified CGboxplot to draw the mean in red including this:

 PLOTS, [xlocation, xlocation], [stats.mean,stats.mean], COLOR=cgColor('red'),symsize=2 ,
thick=12

but I do not know how to make it look bigger!! it appears as a very little spot
I have tried sysize but it does not work

Thanks, Marta
