these are the lines:

```
LandCover = READ_TIFF('C:\SWE\Data\ssmis\LandCoverSSMIS.tif', GEOTIFF=GeoKeys)
filename = 'C:\SWE\Data\ssmis\SSMIS_SWE2.tif'
TIFF_write, filename, SWE, GEOTIFF=GeoKeys
```

LandCover and SWE both have same dimension: [868,1042]

Thanks

LHB
