I noticed the same thing earlier today!

```
IDL> print, min([1.0, !values.f_nan])
```

```
1.00000
```

```
IDL> print, max([1.0, !values.f_nan])
```

```
1.00000
```

```
IDL> print, min([1.0, !values.f_nan], NAN=0)
```

```
1.00000
```

```
IDL> print, max([1.0, !values.f_nan], NAN=0)
```

```
1.00000
```

```
IDL> help, !version
```

```
** Structure !VERSION, 8 tags, length=104, data length=100:
