Subject: anyone figured out how to use pydev with eclipse?
Posted by ronn kling[1] on Wed, 23 Jul 2014 17:03:47 GMT

All,

I really want to add a chapter to the ebook on using the eclipse extension pydev (http://pydev.org/). I started working my way through the installation but it was a bit more painful than I had hoped. I'm hoping that one of our brilliant IDL users on this group have figured it out and would like to help me add a chapter?

thanks!
Ronn Kling
