> myList(2) -> Add, fltarr(nc, nr)
```

Typo. Should be

```
;List
myList = list()
myList -> Add, fltarr(nc, nr)
myList -> Add, fltarr(nc, nr)
```

I suppose you could also create a hash

```
;Hash
myHash = hash()
myHash('Key1') = fltarr(nc, nr)
myHash('Key2') = fltarr(nc, nr)
```
