Subject: Converting multi images from hdf to envi standard format Posted by Muhammad Hasan on Sun, 02 Nov 2014 16:44:44 GMT View Forum Message <> Reply to Message

Hi Everyone,

I have 200 Landsat TM/ETM+ images in hdf format. Is it possible to convert them into envi standard or tiff format by writing simple IDL code? Could you kindly tell me few commands as I don't know about programming too much.

Regards,

Hasan
