The answer from Technical Support:

IDL 8.2 is not officially supported on Mac 10.10 (Yosemite). For officially supported platforms for IDL 8.2, please see this help article http://www.exelisvis.com/Support/HelpArticlesDetail/TabId/219/ArtMID/900/ArticleID/5242/5242.aspx.

We have had several customers able to get their IDL 8.4 running on 10.10 by using this help article http://www.exelisvis.com/Support/HelpArticlesDetail/TabId/219/ArtMID/900/ArticleID/14200/Is-ENVI-52--IDL-84-compatible-with-Mac-OS-X-1010-Yosemite.aspx

IDL 8.4 is not officially supported for Mac 10.10 but seems to be working. Maybe this help article above can be helpful to you.
