hi

here is a example code

```
data = [0, 0.3, 1.3d]
h1 = HISTOGRAM(data, nbin=3, min=0, max=1, loc=loc1)
h2 = HISTOGRAM(data, binsize=0.5d, min=0, max=1, loc=loc2)
```

```
print, h1
print, h2
```

```
h1 = 2      0      1
h2 = 2      0      0
```

h1 and h2 is not equal!!
is it correct??

thanks
