Hi Chris - when do you anticipate the 8.4.1 service pack becoming available?
Thank you!
Caroline

now. But like Wayne said, IDL 8.4 works fine with Yosemite. I've been using it at home ever since
Yosemite came out, and haven't run into any issues. There are a *lot* of new features in 8.4, so at
least in my very-biased opinion, it's worth upgrading now. :-)
