Sorry about the location folks. The new FAQ location is
http://ww2.sd.cybernex.net/~mgs/idl_faq.html

I am trying to get anonymous FTP access here at USGS for it, but I've only been trying for a month so far. Being a gov't installation, I think I can expect it to happen about the turn of the century.

Regarding the formatting, I tried posting it with YA-Newswatcher for the Mac, which didn't like the fact that it was larger than 32K, so I tried it with Cyberdog, which is what made it to the list. Next attempt will

be with Netscape, and depending on how that turns out, I'll probably move on to cnews.

I checked it after I sent it and noticed the formatting. Looked like hell to me, too. I'll try another method today.
