---

I have a problem with IF statement

I wanted to check whether my array A has any zero element and if so then simply return a zero array (with two zeroes). I typed the following but am not sure if it's correct.

A FLOAT = Array[58]

```
FOR i=0L, 57 DO BEGIN  
  IF A[i] EQ 0 THEN RETURN, [0,0]  
ENDFOR
```
