Hi guys,

What am I doing wrong:

```
plot=plot([!values.f_nan],[!values.f_nan], xrange=[-50,-40], yrange=[70,80])
ax = plot.axes
ax[0].hide = 1
ax[1].hide = 1
ax[2].hide = 1
ax[3].hide = 1

poly=polygon([-47,-43,-43,-47,-47],[72.5,72.5,77.5,77.5,72.5 ],/data,color='black')
poly.save, 'square.kml'
```

```
% SAVE: Error writing file Expression must be a structure in this context:
      SMAP.
```

Even when I try "plot.save, 'square.kml'" I get the same error...

```
help, !version, /str
```

```
** Structure !VERSION, 8 tags, length=104, data length=100:
```

```
ARCH      STRING  'x86_64'
OS         STRING  'linux'
OS_FAMILY  STRING  'unix'
OS_NAME    STRING  'linux'
RELEASE    STRING  '8.4'
BUILD_DATE STRING  'Sep 27 2014'
MEMORY_BITS INT     64
FILE_OFFSET_BITS
          INT      64
```

Thank you in advance for your help,
natha
