Subject: Writing 2 arrays of a different type into one text file
Posted by Kai Heckel on Fri, 23 Oct 2015 08:10:36 GMT

Hello!

Is it possible to write 2 arrays into one text file?
What I have are 2 arrays: 1) float, 2) string.
I would like to write the string array into the 1st column and the float array into the 2nd column. Is this somehow possible?

Thanks in advance

Cheers,
Kai
