Hi,

When I try this MAP\_SET under linux, the left-most grid line does not get plotted:

```
IDL> PRINT, !VERSION  
{ x86 linux unix 5.0 Apr 28 1997}  
IDL>  
IDL> MAP_SET, 0, 0, /GRID, /AITOFF, /CONTINENTS, /NOBORDER
```

I notified RSI about this during beta testing. It apparently did not get fixed. This is not the first time that I reported an error and it did not get fixed. For example, try this one:

```
PLOT_OO, FINDGEN(100)+1, FINDGEN(100)+1, XR = [2, 8], XSTY = 1
```

This was also reported. Geeze, what is the use in beta testing...
