Folks,

Hi,

I have some data like:

19-Apr 35.9

03-May 32.4

11-May 23.3

.....

I want to plot this data as (x-y) plot as it is. I mean in x axis like: 19-Apr, 03-May, 11-May, ... and on the y axis just the number that i have. I do not want to convert them as Julian days or something else.

Any kind of help highly would be appreciated,

Cheers,

Dave
