
Subject: Combining two strings

So I'm trying to add strings together so it reads in the format: 'Run07656_Seq0001_Scan012' for a series of a bunch of scans.

So I type in

```
x='Run0'+string(variable1)+'_Seq0001_Scan'+string(variable2)
```

where variable 1 is the run (ex. 7656), and variable 2 is the scan (ex. 012).

But it prints out : 'Run0 7656_Seq0001_Scan012'

How do I get rid of the space?
