Now *this* (I am thankful to say) I think I finally know
how to do (thanks to some help from the folks at RSI).

I'll be putting up a Line Plot object example to go with
my other examples soon. The reason I think I finally know what
I am doing is that this code took me about as long as it
usually takes me to write a program. That is to say, too
long, but for reasons that have to do with my general
programming abilities rather than any lack of knowledge. :-)

Cheers,

David
