Subject: Need help creating a 3-D stack plot
Posted by Sudip Mandal on Sun, 24 Jan 2016 12:04:48 GMT

Hello All,
I am trying to make a 3-D stack plot/layer plot by using IDL. In this plot i need
to put one layer(a 2-D image) on top of another to give them a 3-D look. I tried using the 'surfcae'
procedure by IDl. But then how too use the 'surface' procedure to plot an 2-D image.

Please help me on this.

Thanks
 Sudip
