Hello,

we are planning a shift from IDL 4.01C to IDL 5.0 and
would be pleased to know some possible problems prior
to our start.

In the moment our 2.2MB source-code of IDL 4.01 does
not run on IDL 5.0 because of:

1. cd over nodes problem
2. xmanager-problems

any hint wanted!

Hendrik

PS: tell the bugs know and RSI will give us 5.01A
