Hello,

I use the following lines to plot a line on top of a barchart

```
data1=[277.9,260.4,257.6,169.0,89.3,31.7,18.9,23.2,79.6,163.4,207.6,255.5]
data2=[26,26,27,27,26,26,25,25,26,27,27,26]
cols=intarr(12)+80
cgbarplot,data1,yrange=[0,300],color=cols
cgaxis, yaxis=1,yrange=[20,30],/save
cgoplot,indgen(12)+0.5, data2,psym=-6
```

My problem is that I cannot make the points in the line centre over the middle of the bars. Does anyone know how to fix this?

Many thanks,

Jess
