
Subject: Anyone using insight, or idlde?

Is anyone using insight or idlde yet (5.0 graphical interface tools)? I'm interested in impressions of others to see if I'm crazy or not. I find insight EXTREMELY slow and unresponsive. One of our users also reports random disappearing acts for idlde.

We're running on Sun Sparc workstations (SPARC 4, 110 Mhz, 64MB of memory in my case) with Solaris 2.5.1.
