> Olá, tenho algumas rotinas em IDL e preciso converte-las na extensão .sav para usa-las como ferramentas no ENVI. Qual é o procedimento ou programa que posso realizar este procedimento.

Google translates this as:

> Hello, I have some routines in IDL and need to convert them in the .sav extension to use them as tools in ENVI. What is the procedure or program that can perform this procedure.

Hi Clovis, (sorry, I can't reply in Portuguese!)

If your main routine that you want ENVI to call is "MyMainRoutine", then once you have compiled your IDL routines, do this:

```
IDL> RESOLVE_ALL
```

```
IDL> SAVE, /ROUTINES, FILE='mymainroutine.sav' ; Must be lower-case
```

Then, copy or move the mymainroutine.sav file to the save_add directory of your ENVI installation.

Some more information is here:

<http://www.harrisgeospatial.com/Learn/WhitepapersDetail/TabId/802/ArtMID/2627/ArticleID/9888/Customizing-ENVI-with-IDL.a.spx>

I hope this is helpful! (Espero que isto seja útil!)

Cheers,
-Dick
