Subject: Re: IDL 8.5.2 ?
Posted by wlandsman on Wed, 05 Apr 2017 18:34:34 GMT

I am 99% sure this is a documentation error.   I've not heard of 8.5.2 and in the 8.6 "What's new" they make no mention of it.

https://www.harrisgeospatial.com/docs/WhatsNew.html

I am hoping that 8.6.1 will come out soon, with its more relaxed licensing.   A couple of months ago, Chris Torrence posted that it would hopefully be out in mid-April. Wayne
