Subject: I'm writing an FAQ for IDL

Posted by pat on Tue, 02 Mar 1993 13:26:06 GMT

Seeing as how everyone seems to want an FAQ for IDL, I've
taken it upon myself to write one. I've written a few questions
down off the top of my head:

General:

What is IDL?
What is PV-WAVE?
Who is RSI?
How are they related?
How do I get IDL?
On what systems does IDL run?
Are there anonymouse FTP sites for IDL?

Specific technical questions:

Why doesn't polycontour fill open contours?

Please send me email with questions you feel would be appropriate
for the FAQ. If you're feeling enterprising, provide me with
answers as well. I already have answers to the questions above.
Once I have a prototype, I will post it and place a copy in my
anon ftp directory.

[A while back, someone posted a concise description of the
  IDL-PVWAVE schism which I seem to have misplaced. If someone
  has it, please send it to me.]

That number again is pat@jaameri.gsfc.nasa.gov [128.183.88.75].

ciao,
pat
