I'm going to create a directory researchers, consultants and developers
and publish it on my web site. If you'd like to be included in the
directory go to http://www.iversonsoftware.com/add_entry.htm and fill
out the form.

Thanks, and be advised that this is a voluntary effort on my part, no
charge is made for the listing or for the information on the web site.
No warranties, express or implied, yada yada yada...

Please pass this on to any other parties you think might be interested.

Cheers!
J5rson!
