Subject: IDL Image Processing Expert Needed
Posted by davidf on Tue, 09 Sep 1997 07:00:00 GMT

Hi Folks,

I am working on an IDL project that requires some image processing
expertise that is a bit over my head. My client has medical
images that he would like to process in various ways in
order to quantitate some image parameters. We need someone
with expertise in FFT filtering and perhaps wavelet analysis.

This is a short-term project. There could perhaps be 1-2
days of work initially, with possibly more later. You will
have to sign a confidentiality agreement with the client's
company.

If you are interested and think you have the time and
expertise, please contact me ASAP.

Best Regards,

David
