Subject: IDL 3D surface plot
Posted by sgwp on Thu, 25 Nov 1993 06:51:39 GMT

I am a newcomer to IDL and am having some difficulties with plotting
some three dimensional data. What I want is a surface plot of some discrete
integer, non-uniform increasing data. I have tried just passing the three
dimensional array to surface but the output is not what I want. In what
form must the array be so I can do this ???

   Thankyou for the help.

Subject: Shareware IDL functions
Posted by estevez on Fri, 26 Nov 1993 09:55:24 GMT

Hi:
I really dont know if this is in the faq, Is there some place were I can find shareware IDL functions
and procedures.
                         Thanks in advance

                              Rams
