Can anyone reproduce this? These interactive commands cause IDL to segfault. (I get it both on linux x86 and OSF alpha installations.)

% idl

IDL Version 5.3 (linux x86). (c) 1999, Research Systems, Inc.

Installation number: [...]

Licensed for use by: Licensed for use by [...]

IDL> spawn,'echo 1',unit=unit1

IDL> spawn,'echo 2',unit=unit2

IDL> spawn,'echo 3',unit=unit3

IDL> readf,unit3,a

Segmentation fault

Thanks,

Alan
