Sorry, wrong sender information. Please send all responses
to s9601460@minyos.its.rmit.edu.au

Hi,

I was wondering if anyone knew the whereabouts of any IDL
implementations of the Hough Transform, or
Active Contour Algorithms (i.e. snakes)?

many thanks,

Michael

Hello

Another place to look is at the web page for a digital image
processing class taught by Harvey Rhody at the Center for Imaging
Science at the Rochester Institute of Technology. He has some notes and
sample code...

<http://www.cis.rit.edu/class/simg782/>

good luck

Kirk Knobelspiesse
