Subject: Plot legends
Posted by Simon de Vet on Mon, 12 Jun 2000 07:00:00 GMT

Can anyone reccomentd an easy way to add a legend to a postscript based plot?

Since this is such a fundamental thing to want to do, I presume this is already automatic, or can be implemented easily... I've browsed through the help, and through David's site, to no avail.

Help! I can understand the meaning of my plots, but I doubt anyone else could...

Simon

Bah.

I typical computer fashion, after hours of searching I find the solution 5 min after posting the request for help.

I think that xyouts is what I need....
