Try using IMDISP to display your image:
<http://cimss.ssec.wisc.edu/~gumley/imdisp.html>

IMDISP automatically maintains the aspect ratio of your image. You can also specify an aspect ratio via the ASPECT keyword.

Cheers,
Liam.

That is due to the settings of !x.margin and !y.margin.

- > what can i do to obtain a square image ?

Either set !x.margin and !y.margin to equal values or use the approach
Liam suggested.

Peter
