## Subject: SCANNING THIS NEW GROUP
Posted by Mark Chan on Thu, 25 Jan 2001 03:36:26 GMT

Where I work, the LAN doesn't allow me to view this newsgroup (security?
policy?). Inquiry to our IS people suggests that there is no way around it.
I have been accessing this newsgroup from home via my ISP provider from my
home computer.

Does any one know how to get around the LAN restriction so that I can scan
this newsgroup from my office computer? I can get to the www, hotmail, or my
ISP's web site, etc. from my office ok.

Thanks,
Mark Chan

When I away from home I use Dejanews to follow the
goings on:

   http://www.dejanews.com/usenet

Cheers,

David
