
Subject: IDL Help Gone Missing

Folks,

Just received my IDL 5.5 CD today. Wonderful!

Whoops! Looks like the technical writers felt the same axe as the Mac OSX people. It comes with the old IDL 5.4 help files. :-(

Oh, well. That "What's New in IDL 5.5" book must be around here somewhere....

Cheers,

David

P.S. Let's just say it doesn't matter. The documentation on the new GRIDDATA routine is almost enough to fill a small book anyway. Better to leave it obscure. :-)
