I would have believed that but I discovered that you've made 5,300+ postings to this newsgroup. Now that's something...

Cheers,

I thought the "Top 10 IDL Requests" was a prolific thread, and you  
should know since you instigated it. :-)

And another biggy was the whole IDL-Mac-Alpha support debacle, which  
produced hundreds of posts for sure. That one was not instigated by  
you I think. (but perhaps one of your well concealed aliases)
