Subject: Running PV-Wave-Files in IDL?
Posted by Wladimir Jordanow on Thu, 03 Jan 2002 10:37:14 GMT

Hi,
who can give me a little help?
I does know IDL but don`t know PV-Wave.

1. Is there any possibility to run PV-Wave (*.PRO)
files for matrix-data visualisation under IDL?
2. Have I to convert the *.PRO-files somehow?
3. Can I substitute permanently PV-Wave with IDL whithout much
programming?

Many thanks for any help or hints in advance!

Wladimir Jordanow

No doubt you have had others respond! PV Wave and IDL have a lot
in common and so the .pro files can be run of either package,
PROVIDED that it is not "too complicated". There are some syntax
differences and the way they work and so some fixing may be
required.
