Hello,

I have a question related with loops.....can someone teel me why

if i do a loop that goes to a maximum of 0.6:
for r=0.0, 0.6, 0.1 do begin & print, r & endfor

I get:
0.000000
0.100000
[.....]
0.500000
0.600000

and if now i change the maximum value of the range to 0.7:
for r=0.0, 0.7, 0.1 do begin & print, r & endfor

I get:
0.000000
0.100000
[.....]
0.500000
0.600000

EXACTLY THE SAME!!!

I have IDL Version 5.4

Thanks :) !
M Carmen
