Michael,

If you want a full blooded IDL researchers application for Analyze or various raw MRI formats, you could try MRVIEW from Doug Ranken at LANL.

There's blurb about MRVIEW at :-
http://www.isbr.lanl.gov/brain_imaging/mrview/mrview.html

if you can get through to it - there seem to be server problems right now.

Alternatively you could try emailing Doug at ranken@lanl.gov.

Cheers,

Andrew
