Hello,

I'm not sure whether RSI is accepting anymore beta testers for IDL for OS X, but if you would like to see it succeed, now might an excellent time to volunteer to beta test it.

I think that our combined cries in responding to RSI's initial decision to drop the Mac OS was a resounding success. Now we have the opportunity to help RSI developers tmake IDL for Mac OS X a great product. So, if you're interested, send an Email to beta_idl@rsinc.com. As I said, I'm not sure if they're still looking for testers, but until we find out otherwise, it's worth a try.
