
Subject: looking for SYNOP symbols

hello,

Does anyone have a predefined font table (or icons, or bitmaps) of all the symbols needed in a SYNOP weather map. I am building a SYNOP routine in IDL 3.5 and we have some symbols defined, but not all, and I would love to find out that someone has already done this.

Thanks for any help. Please respond to me via email, or posting (but sometimes I don't get to all these groups, so email is better). I will post the results if I get some if anyone else is interested in this.

thanks a bunch,

-stephen Strebel

ps: I cross posted this, and some people may receive this directly via mail.
