Subject: Urgent help! Could anyone send me a simple algorithm for Maximum Intensity Projection(MIP)?
Posted by ray_gan2001 on Sat, 20 Jul 2002 09:34:12 GMT

Has anyone heard of MIP(Maximum Intensity Projection). This is technique used in medical area wherein images are obtained from magnetic resonance scanners.

But I cannot find any algorithm for MIP in detail.

I would appreciate it if some information could be passed on as to how this works or the details of the algorithm, even the simplest MIP, just in detail! Thank you!
