
Subject: Triangulation invalid

Hi,

I am trying to do a "contour" plot with the "triangulation=" keyword set to some [3,N]-array.

Now, whatever I do, I always get the error message

% Internal error: Triangulation is invalid.

This is pretty independent of whether I construct my triangles "by hand" or via the "triangulate,..." procedure.

Any ideas on what this means, how I can get more explicit error messages, or a workaround?

thanks,
Daniel
