Along the same lines as Rick's questions, my Christmas wish this year would be for someone to send me information regarding the following C functions not listed in the official API (export.h). Any and all help, either to the group or privately via email, would be a great help!

IDL_ObjCallResetSession IDL_ObjValidate IDL_ObjReference IDL_ObjSetSessionResetFunc
IDL_ObjAddMethod IDL_ObjRuntimeDefine
IDL_ObjCallMethodByString IDL_ObjCallMethod IDL_ObjNewCreateBaseVar IDL_ObjNew
IDL_ObjDestroy IDL_ObjValid IDL_ObjClass
IDL_ObjContainsSuperClass IDL_ObjContainsClassByStr IDL_ObjContainsClassByID
IDL_ObjIsA IDL_ObjInsertDef IDL_ObjHelpClass
IDL_ObjHelp IDL_ObjFindMethod IDL_ObjHasMethodByHVID

IDL_HeapVarUpdateCounts IDL_HeapVarHashTableResize IDL_HeapVarHashInsert
IDL_HeapVarHashFind IDL_HeapVarDelete
IDL_HeapVarFromVar IDL_HeapVarHelp IDL_HeapVarPreAlloc IDL_HeapVarNew
IDL_HeapVarClearVisible IDL_HeapVarGC
IDL_HeapVarFree IDL_HeapVarResetSession_hv IDL_HeapVarResetSession_objdef
IDL_HeapVarName IDL_HeapVarSearch
IDL_HeapVarValid IDL_HeapVarStatus

IDL_PtrValidate IDL_PtrNew IDL_PtrFree IDL_PtrValid

I am sure that only a fraction of these are really useful but at this point, I have no way of knowing which fraction that is :(

Feel free to followup with your own Christmas wishes. Who knows, maybe there really is a Santa Claus!

James
