Hi Folks,

Does anyone have a routine for creating great looking pie charts in IDL? I have the idea that with almost no effort IDL could compete with Excel in the Microsoft world. :^)

Cheers,

David

Last time I looked, this was the best (maybe only) example I found:

http://wikyonos.seos.uvic.ca/people/stone/cmg_idl_lib/pie.pr o

As to whether it's great looking... beauty is surely in the eye of the beholder.

P.S. a google search for "IDL pie charts" also includes this link:
